ABOUT

We offer assistance to people with settling on better choices with regard to **designing and building** their dream projects. We offer **Real estate** services for individuals and organizations looking for investments, also taking into account the customer's needs. We are essentially a **one stop answer** for your purchasing land, planning your building, constructing it and additionally promote the project on market, upon your wish.

We are a group of exceedingly prepared individuals from varied backgrounds and are equipped with dynamic technologies that make work more effective and efficient, subsequently saving on both time and money of our clients. The primary objective of our organization is to **support customers from initial planning to final implementation** of their projects. Remarkable customer satisfaction and value for money is what distinguishes us in our field. We believe our **quality of service and timely completion** of projects contributes to the growth and prosperity of our clients and our team.

PHILOSOPHY

At TG Groups, the lead focus is on having a **framework of established team that extends service to every customer with no compromise in quality and with the right value for money.**

Being a multi-disciplinary firm that revolves around progressing the built environment, TG Groups anchors on the idea of providing varied levels of service in the fields of **Planning & Design, Construction & Material management, Real Estate & Joint Ventures.** With its experienced team, the firm has proven that a good design, execution and promotion requires a deep understanding of various interacting economic, social, physical, and environmental aspects. Integrating this insight in TG Groups has been among the most important ingredients for its phenomenal growth as a company and highly satisfied customers since its inception.

The primary objective of the organization being, to support customers from initial planning to final implementation of their projects, the globally experienced team brings a **diverse expertise** to each project and share a variety of skills with each other as well as the client at every stage of the workflow. The team believes that creativity and viability are not mutually exclusive and that they are vital and complementary elements of the whole design and execution process. The Clientele benefit from the company's approach of combining local understanding and Global vision of not just promoting latest trends and technologies of the industry, but implementing the latest frameworks that are proven to be **cost effective and time saving.**

Constructability is a valid and significant part of a building process, which is generally overlooked at the design phase. It is a key factor in all design and business processes in the firm from a project's inception to completion. The determination to support this principle remains consistent throughout all stages of implementation of the design.

The **integrated approach** has been backed by a highly professional management team with a wide range of academic and practical experience in the construction and allied industries. At TG Groups, understanding the need of collaboration with varied engineering and planning disciplines in having Visionary ideals and innovative approaches has strengthened the team and its customer values.

LEADERSHIP

Mr. T. Aravindan, an inspiring leader - started off his business ambitiously by working in various fields. Realizing the potential in market and growing demand in construction industry for raw materials, he started the **Aravind Blue metals & Crushers** in 1978. With a steady progression, the business branched into **Transportation, Quarrying, Construction and allied industries.**

Aravindan realtors became his major focus after a decade into the industry. His diligent work habits established a widely recognized and a trusted name in **TamilNadu Real Estate industry.** He has spearheaded the development of the establishment. With decades of exceptional achievements, he looks over the developments and growth of TG Groups in various business sectors.

His eldest son, upon graduation joined the establishment and manages the **Architecture** department and his younger son administers the **construction** division. His daughter heads the in house **Product design** team. Bringing the home grown diverse knowledge into the company, has widened the specialized areas of service.

Mr.T.ARAVINDAN
CHAIRMAN

Mr.A.THINAGURU
